Purpose

The purpose of the online roster is to have a single collection point of all players in the THSLL. This provides greater exposure on the overall numbers as well as assists in the waiver process. By ensuring that all teams provide the same information the league can more easily provide reports and metrics that may be used for future league structure propositions.

Pubic Roster

The roster will be available to the public on the individual team page at thsll.org.

Roster			
#	Player	Position	Grade
